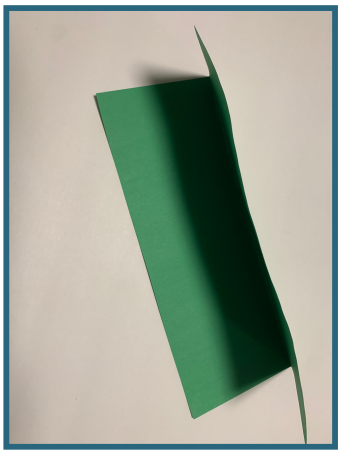
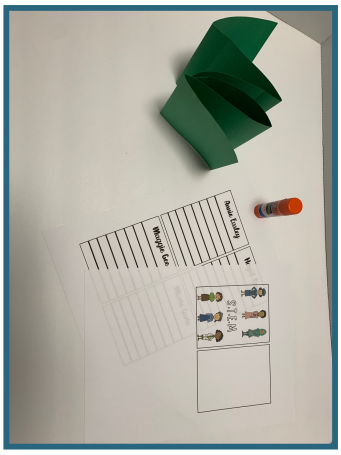
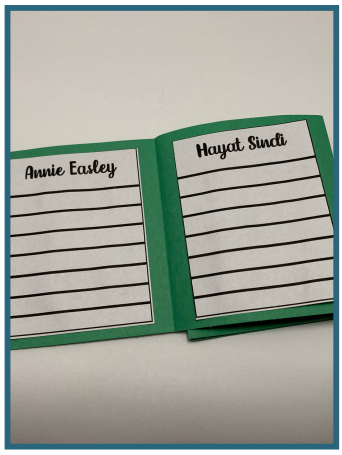
STEM Accordion Booklet - Women

Research these six extraordinary women in the fields of Science, Technology, Engineering, and Mathematics. After you put your booklet together, write facts on the pages provided about each woman. These facts should be key points. Two pages are intentionally left blank should there be a need to replace one that is provided.







Materials: -One piece of construction paper
-Scissors and Glue

1. Fold Paper in Half

2. Cut in half & fold

3. Attach or draw a cover page on the front cover of the booklet.

4. Glue the back of the last strip of paper to the top of the next strip

5. Glue the remaining pages to the book.

6. Use the pre-designed cover or create your own.
